Venecia[®]

1 Day to launch

launchpad is a centre for concept creation and rapid prototyping that offers lightning fast turnaround time and maximum innovation.

come to us with a packaging goal in mind and meet with our team of experts. within one day we will design and create your prototype it's that simple more than 18 months worth of R&D product to you in one day an amazing advantage in a fast moving market

Innovative products from launch PAD:

The launch PAD Team has their ear to the ground in markets all around the world. The latest food, lifestyle and packaging trends are covered, and the team pride themselves on firmly pushing the boundaries to present innovative products

STACK-PAK

The Stack-Pak is the best of both worlds - it has a board base for a premium or eco look, and a clear plastic lid for superior product presentation.

There is also a tray in the middle to create a separate compartment within the same package. This is ideal for separating items, such as meat and rice, or separating salad from toppings. There is also a handy fill line on the base to assist when filling the compartment tray.

The sturdy design allows for several boxes to be stacked on top of one another, so it is perfect for takeaway. This is an advantage for pre-packed salads on display, as shelves won't need to be re-stocked as often during busy service periods.

The lids are one-size-fits-all which is convenient and minimises stock holding. The bases are available in a range of sizes which can be custom printed to bring your branding to life.

MIGHTY DRINK TRAY

It's small, it's tough, it's mighty.

This new and improved drink tray has a sturdy board construction that makes it perfect for holding four drinks in one hand - without the normal spills and wobbles.

Cup size is also covered as the mighty drink tray can hold 8oz, 9oz, 10oz, 12oz, 16oz, 20oz, 22oz and 24oz cups. Perforations make the tray adjustable for customers only carrying two drinks. The trays are also flat-packed to reduce storage space and are quick and easy to assemble to free up staff time in store.

Send a strong brand message by custom printing your Mighty Drink Trays. Brown, white or coated hi-shine™ trays can be printed with up to six colours on orders of 20 000 or more units.

BOSS CUP™

Drink Coffee like a Boss!

The new Boss Cup™ has a modern embossed panel design creating air pillows to ensure your coffee is hot - not your fingers.

The new range also includes an 8oz Squat Cup which, together with the 12oz and 16oz cups, provides a one-lid-fits-all solution for convenience and minimal storage. The natural brown finish of the cups are sure to appeal to the eco conscious.

The most exciting thing about The Boss Cup™ is that you can design your own em-Boss-ing! This is available for minimum runs of 500,000 pieces, and once the creative juices start flowing we're sure you'll realise all sorts of Boss-abilities!

All sizes are available for custom printing for a minimum run of 50,000 pieces. We're quite sure that once you try The Boss Cup™ you'll never go back...

DIGITAL CUPS

Introducing Detpak's revolutionary new cup capability... high quality photographic print with optional high-build dimensional varnish.

This is the new reality!

Detpak has invested in a new state-of-the-art digital printer, which allows cups to be printed with the highest quality yet.

The printer does not require art set up or plates, saving money for you, while also saving time and shortening lead times.

The best part is the embellishments available! Dimensional print can be used to create unique patterns, textures or logos to bring your brand to life in a way it never has before. Let your imagination run wild and start designing now!

Venecia®

Our Commitment To people and the environment

Venecia is deeply committed to environmental and social responsibility.

For Us, This means supporting our people and sustaining our future

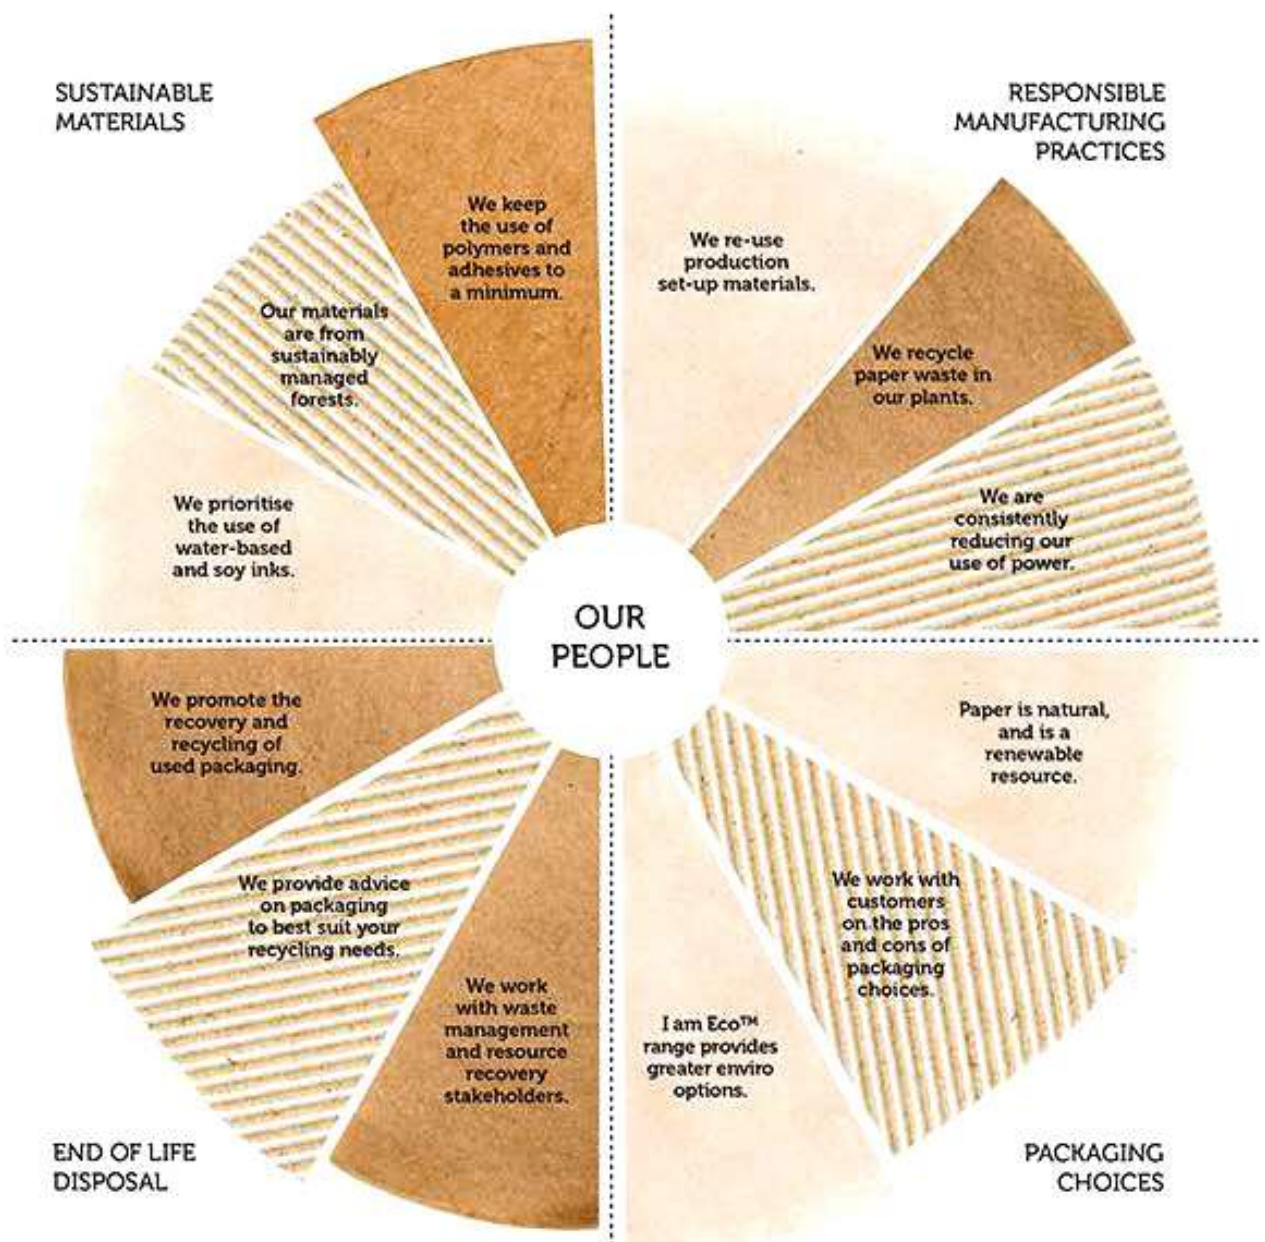

Supporting our people	Passion for paper	Passion for paper
<p>Corporate social responsibility is a big phrase for a very simple idea- taking care of the community and welcomes the regular social accountability audits from many of our global customers. We focus on areas including fair hiring practices; safe working Hours; fair compensation and benefits; and workplace safety in all of our manufacturing facilities. VENECIA makes sure that its team is paid at, or above, award wages for normal time and overtime, whether they are in Saudi Arabia. We invest in the local communities surrounding our factories through sustainability projects and infrastructure and support many charities.</p>	<p>VENECIA is helping a group of entrepreneurs in a struggling community explore their passion for paper. The group is running a hand-made paper bag business that aims to create jobs and a sustainable income Gulf area. VEECIA has been with the business from the beginning, by helping to fit-out the workspace and purchasing the raw materials needed to get the business going as well as donating paper. Detpak's support is ongoing and we're the difference this group can make to their community in Saudi Arabia.</p>	<p>VENECIA is helping a group of entrepreneurs in a struggling community explore their passion for paper. Venecia®

VENECIA ENVIROMENTAL PHILOSOPHY :

ENVIRONMENT

SUSTAINING OUR FUTURE

Our approach to the environment is all-encompassing. To have a true environmental focus we must work on all of these stages in unison, and constantly strive for improvements and innovations in order to sustain our future.

SUSTAINABLE RAW MATERIALS

VENECIA assesses everything that goes into manufacturing our products for its environmental impact. VENECIA only uses paper and board from large, reputable raw material suppliers meaning no old growth forests are used. VENECIA regularly audits its suppliers for evidence of sustainability. We keep the use of inks and adhesives to a minimum and we also prioritize the use of water-based and soy inks. These are more environmentally friendly than solvents based inks as they use less non-renewable resources.

RESPONSIBLE MANUFACTURING

PRACTICES

We continually assess our manufacturing practices to make our processing as sustainable as possible. We minimize our inputs where possible which includes reducing our use of power and our use of solvent based inks and adhesives. We also maximize the re-use of production set-up materials. VENECIA takes into account its own level of packaging and we minimize the amount of outer packaging on all of our products to customers. Our waste is always disposed of in line with Environmental Protection Agency (EPA) approved practices

ENVIRONMENTAL CHECKPOINT

To assist you in making a selection that is mindful of the environment we have rated each of our products throughout this catalogue against 4 key environmental criteria

PACKAGING CHOICES

Many of the options in the VENECIA range are environmentally friendly because they are based on paper or board – a renewable resource. We also offer range of products, which uses bio-film rather than traditional plastic lining and is 100% biodegradable. The range of raw material options available to us is continually advancing, and we are actively investigating and trialing alternate renewable materials to give our customers more choice. We assess these products with a view to being both highly functional and environmentally sustainable. Our team can guide you through product comparisons to meet your specific environmental and packaging objectives

END OF LIFE DISPOSAL

VENECIA works with waste management and resource recovery stakeholders to develop increasingly sustainable options for product disposal, including diverting products into new recycling streams. VENECIA actively works to reduce the environmental impacts of its packaging by promoting resource efficient packaging design; the recovery and recycling of used packaging; and reducing the incidence and impact of litter. The VENECIA team can advise you on the best packaging options to suit your disposal or recycling needs.

venecia®

Branding Means Business

The Biggest brands in the world choose us for their branded packaging. They know that if their branded packaging inspires and influences their customers their bottom line will benefit. All of detpak's products can be custom printed to strengthen your brand and help you stand out from the crowd with over 65 years of experience in superior design and printing across a range of products. you can trust venecia to build your brand and your business

GETTING STARTED

OUR TEAM CAN GUIDE YOU THROUGH THE PROCESS OF CHOOSING THE RIGHT PACKAGING SOLUTION FOR YOUR PRODUCT, YOUR ENVIROMENT AND YOUR BUSINESS.

VENECIA'S MANUFACTURING OPERATION ARE ISO9001, HACCP, AIB OR BRC ACCREDITED. WE SUPPORT OUR MANUFACTURING FACILITES WITH A FULLY-EQUIPPED AND FORMAL TESTING PROCEDURE TO AKE SURE OUR CUSTOMERS CONSISTENTLY RECEIVE HIGH QUALITY PRODUCTS THERE ARE MANY WAYS YOU CAN USE OUR WRAPS INCLUDING FOR PRESENTATION IN-STORE TO WRAP PRODUCTS FOR TAKEAWAY AND AS AN ALTERNATIVE TO A NAPKIN STAMPING YOUR GRAPHICS ONTO OUR PRODUCTS ALLOWS YOU TO CUSTOMISE YOUR PACKAGING EASILY AND COST EFECTIVELY

**SMALL TOUCHES
CAN MAKE THESE
PRODUCTS YOUR
OWN, LIKE
STAMPS,
STICKERS, RIBBONS
OR TIES**

Here, We've Included The Three Main Steps And Some Of The Most Common Issues To Consider:

STEP 1:

MATCHING THE PRODUCT WITH THE PACKAGING

Although it might look simple on the surface, there are actually a lot of different factors to think about when you're packaging a product. The checklist below will help you make sure you consider every option.

- **the packaging support the shelf-life of my product?**

Alright packaging is often needed if products are being stored rather than consumed instantly.

- **Can the packaging cope with the moisture and grease level of my product?**

Packaging with a lining may be needed for wet or oily products.

- **Will my customers be able to easily open and/or transport the packaging if necessary?**

Ease of opening and the ability to consume "on-the-go" are important considerations for take-

way packaging.

- **Does the product fit well within the packaging?**

Oversized packaging can increase costs, and food moving within

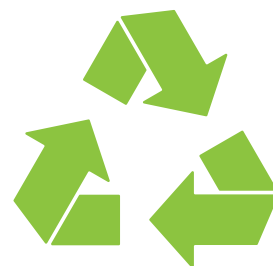

containers can affect product integrity. Ask for packaging samples to test sizing for your specific products.

- **Is the packaging safe for food?**

All of VENECIA'S products are from certified food grade materials and manufactured in plants accredited for food safety and quality consistency (HACCP. ISO9001).

- **Can the packaging support our service goals?**

Pre-formed packaging can decrease handling time. While windows allow for pre-packaging of items to increase sales during rush hours.

STEP 2:

SETTING YOUR ENVIRONMENTAL AND SOCIAL GOALS

Use our environmental checkpoint system (page 27) (environmental) to help you to evaluate each packaging item against three key criteria and assess if the item is sustainable. **Compostable, recyclable or re-usable?** Social responsibility along our supply chain is important to us. When you partner with Venecia, you can be confident about our business conduct and principles. If you would like to contribute to Venecia social responsibility and sustainability initiatives or join us in supporting local charities, please get in touch with one of our team members.

STEP 3:

MAXIMISING EXPOSURE FOR YOUR BUSINESS

Product packaging can help you build your and increase business. It is important to choose packaging with a look and feel' to match your brand. This may involve simply choosing a stock colour (generic) that this your image or custom printing your packaging .

- **Stock packaging**

Many of our products are available in plain colours or subtle stock prints that can be easily worked into the decor of your store small touches can make these products your own, like stamps ,stickers, ribbons or ties. Stock or generic products are available by the carton usually with 200-1000 pieces Per carton. This means you aren't tied up with loads of stock, taking up room and money.

- **Custom printing**

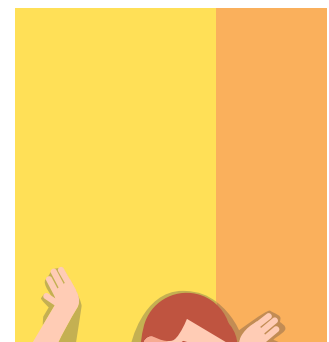

All of VENECIA'S product can be custom printed with your design to help you stand out

from the crowd . custom printing is often thought of as an expensive option, but there are many ways to maximise your exposure without breaking the bank We often recommend that business on a budget start with custom printing just one packaging item from our range . An ideal place to start is a carry bag, as it will generally house all of our other items. They are economical, use minimal space in. Store, have a low minimum run (starting at 3000 pieces) and can be used to great effect with

a 1-colour print. Carry bags will advertise your business as customers carry them from the store, and are also much more likely to be re-used extending their lifespan. Wraps are also a versatile option to add branding to your range . They can be used to line food trays, lunch boxes or serving platters as well as wrapping food. Wrapping food. Wraps are very economical, use little storage space and can be easily used in-store and for takeaway times.

- **MAKING IT HAPPEN- GETTING SET FOR CUSTOM PRINTING**

There are two ways that we can help you get ready for custom printing your packaging .We can:
1.Design your artwork for

you just send us your logo. Some examples of how it's been used on your business cards letterhead or website and a few instructions on what you'd like to achieve. We'll take care of the rest .
2. Provide you with a

template for any of our packaging items your graphic designer or advertising agency can then place your artwork onto the template and send it to us.

• Art file

format & requirements
Artwork is to be supplied in Adobe Illustrator format and all fonts need to be converted to outline paths . A PCF or colour hard copy, including a listing of colours, must be supplied for reference .
Linked halftone images to be 300 dpt @100% size (supplied separately to a file- do not embed images .
Linked bitmap images to be 600 dpt @100% (supplied separately to a file- do not embed images)
